

DESSER

THE HOME OF RATTAN FURNITURE SINCE 1919

2021 COLLECTION

Visit us online at
www.desser.co.uk

A MESSAGE FROM THE FAMILY

2021 marks the 102nd year of business for Desser and we are still as passionate today about the quality & style of our products and the service we provide as our ancestors were over 100 years ago.

As always, we are taking the lead with trends and our vision is to create elegant and contemporary cane furniture which suits, conservatories, summer houses, orangeries or any other living area. To deliver this we offer a range of designs to customise in our large array of fabrics, including the innovative Aquaclean. Crafted to the highest standards, assembled in the UK and with all cushions made in-house in Manchester, our cane furniture is versatile, reliable and durable.

This year has seen us also develop more individual natural pieces such as mirrors, cabinets and storage baskets as well as expand our outdoor range with luxury waterproof sunbrella fabric. All of which you can see in this brochure or view more online at www.desser.co.uk

2020 was a difficult year for everyone, but as a 4th generation family run business, we thank everyone who continues to support us and we hope that you find something that you like whilst browsing this brochure.

From all at Desser & Co

SUSTAINABILITY AT THE FOREFRONT

We take great care in designing and creating our furniture with sustainability and our environmental impact at the forefront of production. Our quality natural rattan is sourced in Indonesia and we work closely with local factories and growers to protect Indonesia's stunning natural landscape.

Rattan is ecologically important, growing up to six meters a year in areas that cannot support other land products – such as those remaining under flood waters for long periods of time. It is a climbing palm and can only grow amongst existing trees such as fruit orchards and rubber estates, so farming of rattan encourages the preservation of forests in its nature as a companion crop.

It's one of the most sustainable materials in furniture manufacturing, compared to hard wood alternatives which can take up to 30 years to grow.

Rattan farming provides sustainable income to some of the poorest people living on the fringes of the forests, helping generate employment and build communities in these farming areas.

You can buy Desser furniture knowing that it is produced in an ethical and sustainable way – we promote Fair Trade and follow a low carbon emission business plan.

CREATING YOUR CUSTOM SUITE

1

Select Your Range

Browse our extensive range. We have a selection of Natural, Natural Wash, Light Oak and Grey frames for you to choose from in a variety of styles that include pole, wicker weave and upholstered.

2

Select Your Items

From corner sofas, traditional sofas, armchairs and speciality swivel chairs, we have you covered. We also have a huge range of accessories for you to customise your suite with.

3

Select Your Fabric

We have a large selection of fabrics which you can pick from and find on page 44, ranging from our entry level B grade fabric to the specialist Aqua Clean material, allowing you to clean stains using only water.

QUALITY IN MIND

Desser Care

While cane is an especially resilient material, it is incredibly important to look after your furniture correctly. Frames can be cleaned by wiping down with a soft, damp cloth. Avoid using chemical products like benzene, thinners and abrasive cremes. An occasional spray of furniture polish will keep your cane furniture looking its best. Its recommended that you regularly turn your cushions and draw your blinds, so that any fading caused by direct sunlight is evenly spread. Your furniture should also be kept in a dry environment. Following these simple steps will allow you to enjoy your furniture for a lifetime.

Quallofil Technology

Our Quallofil cushions on our Seville and Swivel Rocker's use fibre fusion technology, meaning your cushions spring back to their original shape year after year. While the fibre fusion ensures plumpness, they also give our cushions softer look and feel compared to other fillings, making for a more comfortable sit. Plus, Quallofil cushions are made with low CO2 emissions too!

Pirelli Webbing

To ensure our furniture offers the ultimate comfort, we use only the best materials when building our suites. Pirelli webbing ensures that your suite frames remain strong and firm and support the rest of the upholstery. With such a strong foundation, you know you will be sitting comfortably for years to come!

Fabric

We've hand-picked 30+ fabrics to complement each of our frames that allow you to create your own custom suite to match your style. From Checks and chenille's to Aquaclean fabrics, we're sure we've got fabric you'll love. Request your fabric samples by asking a Desser representative or email sales@desser.co.uk

Quality Built In

We only use the highest quality materials when creating our handmade suites and conduct regular, rigorous quality checks at each stage of assembly. Our frames are assembled, cushions hand made, and your suite is packed for delivery all at our Manchester warehouse and offices, meaning we're always monitoring what's being sent out to our customers.

Dacron Wrap

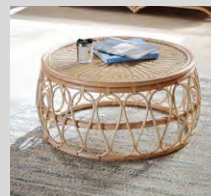

Dacron Wrap is another high-quality material we use when hand making your suite. It is used on our upholstery fillings and foams to prevent loose, worn areas forming on your cushions and reduces the wear on your fabrics by reducing friction

FABRICS

We've hand-picked a large selection of fabrics to complement each of our frames that allow you to create your own custom suite to match your style.

From Checks and chenille's to Aquaclean fabrics, we're sure we've got a fabric you'll love.

Choose between:

Our entry level B grade fabric (B)

Mainly 100% Polyester and machine washable* at low temperatures.
(Please read the care label)

Our C grade fabrics (C)

Mainly created from a blend of fibres that help create a more hard-wearing fabric.

Aquaclean (AC)

Aquaclean is a revolutionary stain resistant fabric treatment that allows you to clean stains using water only. This provides you with simple fabric maintenance in the minimum amount of time.

Aquaclean fabrics also contain a Safe Front Hygiene Protector component helps to protect against viruses and bacteria.
